

Perfect overview with the
TIMEFLEX Group Calendar

For any number of users,
rooms and appointments.

TIMEFLEX Group Calendar for IBM Notes and SmartCloud

Do not waste unnecessary time in scheduling and coordination

Why use an add-on time management software solution like **TIMEFLEX** Group Calendar for IBM Lotus Notes?

The reason is simple. **TIMEFLEX** goes well above and beyond the basic features and functionalities that are provided in IBM Notes calendaring & scheduling, making your organization's users more productive, efficient and responsive.

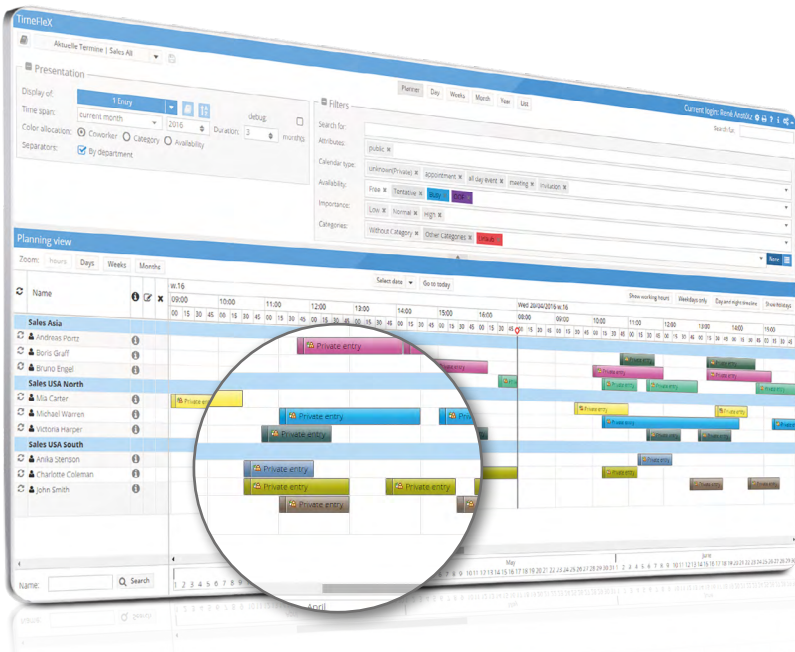

The **TIMEFLEX** Group Calendar solution is completely scalable and delivers clear value-add for organizations ranging in size from a few dozen persons all the way up to the largest multinational enterprises.

A web-based interface saves you the hassle of deploying a program setup through your organization, since **TIMEFLEX** works in all recent browsers. The program can be comfortably managed by the administrator from his desk.

- Only one database (NSF) with per company that is independent from the total number of users and calendars
- Client, Web and Mobile Userinterface
- Modules:
 - MeetingFinder
 - MeetingManager
 - Mobile App

TIMEFLEX

The Gantt view with zoom function, allows you a good perspective on all dates and free-time periods including filter functions at a glance.

TIMEFLEX Features:

- Yearly, quarterly, monthly, weekly or daily views – instantly!
- Direct creation and modification, moving and copying of calendar entries
- User-defined group calendar configurations – if applicable
- Custom color scheme by employee or category
- Always current due to the missing need of periodic synchronization
- On-the-fly filter settings for selecting entries and data in a view
- Multi-lingual user interface in English, German and Spanish, other languages upon request
- Integrated international public holiday management
- Unlimited amount of users and resources
- Access authorization by TIMEFLEX as well as over ACL of mail databases
- Multi-Domain integration
- New created Group Calendar available on demand
- Overview of non-accepted invitations
- Comprehensive time zone support
- Additional modules (Mobile App, MeetingFinder, MeetingManager and SMS)

and many other features ...

Do you have easy mobile access to your dates in view, while on the move ...?

TIMEFLEX Mobile App delivers the dates clearly on your smartphone and/or tablet. This allows you to create, edit and delete appointments everywhere. Best conditions for effective time management!
